TWO CENTS

HOT WAR IN INDIA.

Natives Fighting Fiercely
Against the British.

A HEROIC AFRIDI SERGEANT.

He Saved a British Company of Sikhs
by Taking Them Fresh Cartridges Under
a Heavy Fire—Ameer of Afghanistan
Suspected of Double-Dealing.

BOMBAY, Sept. 20.—Advices from the front show that the various columns are advancing against the Mahomkiss from Panjkora and Shabkadr. As yet they have met with no serious opposition, but the difficulties of transportation in a mountainous and almost pathless country are immense. Another formidable obstacle in the way of rapid movement is the lack of water.

The brigade of General Jeffreys has not joined in the advance. It left camp at Anayat with 16 companies of infantry and four guns, in order to reattack the enemy at the village of Damotaga. The enemy made a desperate resistance, but were driven out into the hills.

The British demolished their towers and captured 400 muleloads of supplies. As soon as the troops began to retire from the village the enemy reappeared in force. The retirement, however, was effected with great precision, the native troops behaving splendidly. Two Sikhs were killed and six wounded.

It is now known that the enemy's loss during the fight on Thursday last between the Momunds and the Second brigade of General Sir Binden Blood, in the valley north of Anayat, was very heavy. The tribes engaged did not press the brigade during the retirement, but fresh tribesmen appeared.

Captain Ryder's company of Sikhs virtually owed their lives to an Afridi sergeant of the Guides corps, who, when the Sikhs had exhausted their ammunition and were desperately cutting their way back through the enemy, dashed up the hill under a heavy fire with a supply of cartridges. He arrived just in the nick of time, as the swordsmen of the enemy were already among the Sikhs, who were absolutely unable, after the heavy climb and the hard fighting, to continue a successful struggle.

Lieutenant Watson was thrice wounded while gallantly leading a handful of Buffs, who routed a large body of the enemy that was trying to storm the village on which General Jeffreys, with guns, had taken a position after missing his main body in the gloom.

The queen has sent the following dispatch with reference to the reverse near Camp Anayat:

"I am deeply grieved at the loss of so many brave officers and men. I earnestly desire to be informed as to the condition of all the wounded. The conduct of the troops was most admirable."

LONDON, Sept. 20.—As the British now assembled on the frontier is of ample strength to wipe out all visible resistance, the only conclusion that can be reached in relation to the dispatch of reinforcements of artillery is that the authorities are possessed of information of a serious character.

The intimation conveyed by the war office to the London commercial agent of the Ameer of Afghanistan, that no war material or machinery for the manufacture thereof, will be allowed to cross the frontier during the present crisis, indicates that the British government has by no means entire confidence in the Ameer's fidelity, and it is hinted the government has learned that while professing friendliness to Great Britain the Ameer has been secretly preparing for war.

Well-informed circles are also discussing the story of secret correspondence between Russia and Afghanistan, which is said to have fallen into the hands of British officials, and it is further intimated that a widespread plot, embracing the Beluchis and others, has been discovered.

AN ENORMOUS DEATH RATE.

U. S. Inspector Says It Is Due at Havana to Lack of Proper Food.

WASHINGTON, Sept. 20.—In his weekly report to the marine hospital service Sanitary Inspector Brunner, at Havana, says that for the week ended Sept. 9 there were 326 deaths, of which 15 were from yellow fever, 29 from enteric and pernicious fevers, 34 from dysentery and 55 from enteritis. The inspector says the decline in deaths from yellow fever is only apparent, many deaths from that disease he thinks being placed under the head of enteritis and enteric fever. At the same time there are not as many cases of yellow fever in the military hospitals as there were two months ago, the soldiers who are sick being cared for in the hospitals elsewhere. For two weeks, according to the city mortality, no deaths from yellow fever have occurred in the city proper; this condition he says does not exist.

The enormous death rate from enteritis and dysentery, the inspector says, is a result of the lack of nutritious food, and the deaths from these diseases have not yet reached high water mark. Unless the laws are so amended as to admit certain important food products, none but the favored few will

be able to obtain nutritious food. Even at the present time all fresh meats command prices above the reach of the lower classes, while breadstuffs are proportionately high.

He says he has not had sufficient time to push an investigation of the number of cases of beriberi among the Chinamen here. It is certain that no city can show a more inviting presence to epidemic disease than the city of Havana.

THE SILVER CAMPMEETING.

Labor Leaders and Colored Men Made Speeches at Springfield, O.

SPRINGFIELD, O., Sept. 20.—Labor day and colored men's day were celebrated at the silver campmeeting Sunday.

George Riddle of Columbus was chairman and the speakers were the following named: C. W. Chevis, colored, Omaha; James R. Sovereign, master workman Knights of Labor; T. J. Tarsney, Durango, Colo.; Mayor Ramsdell, Lynn, Mass.; C. H. Taylor, colored, Baltimore, ex-register of deeds and ex-minister to Liberia.

The attendance, which was large at the Saturday session, was augmented considerably by the arrival of a delegation 800 strong from Champaign county, headed by a band and Jesse Lewis of Urbana.

The first speaker at the afternoon session was Stephen D. Williams, a well-known silver writer of Grand Rapids, who was introduced by the chairman of the day, Henry T. Niles of Toledo.

H. Martin Williams, a prominent silver speaker of St. Louis, was presented as the next speaker of the morning. He made a brilliant address.

The program was enlivened by band music and by songs by Logsdon and Kelly, the Kokomo (Ind.) duo.

In the afternoon the big tent was filled to overflowing to hear ex-Governor St. John of Kansas in one of the best speeches made so far. He was followed by Miss Nellie C. Robinson, the famous woman attorney of New York city, who won frequent applause. At night the big tent was again packed to hear Mrs. Helen Gougar and John A. Lee of St. Louis. The latter is the well-known ex-president of the Commercial Travelers' Protective association.

WAR OVER A POSTMASTER.

Prominent Men to Be Arrested For Shooting a Negro Official in Georgia. Ex-Postmaster Will Be Punished For Maintaining Another Postoffice.

ATLANTA, Sept. 20.—The recent shooting of the negro postmaster at Hogansville threatens to entail no end of trouble for the people of that town. A postoffice inspector has finished a three days' investigation of the shooting and it is stated that as a result of his work two of the most prominent business men in the town will be arrested this week on a charge of attempting to assassinate the postmaster.

The people of the town are called upon to face a most uncomfortable state of affairs. They have never yet patronized the negro postmaster directly, the old postmaster, Hardaway, maintaining his old postoffice and sending for and obtaining in bulk the mail matter for all his white patrons. Their letters were mailed on the train. The ex-postmaster will be prosecuted for this and the letters can no longer be mailed on the train.

When this action was announced two days ago the citizens conceived the plan of having their mail sent to the next nearest postoffice and sending a carrier for it. They are now told that this would be in violation of the law which permits only the government to maintain a post route. Feeling is high among both whites and blacks, and further trouble is feared.

ARBITRATION WITH ENGLAND.

Negotiations For a Treaty May Be Resumed Next Month.

LONDON, Sept. 20.—The Times this morning says: "The statement of the American press that the state department at Washington and the British ambassador have received instructions to reopen negotiations for a general treaty of arbitration is at least premature."

"It is not improbable that the negotiations, which have never been broken off, may be resumed next month, when Sir Julian Pauncefote returns to his post; but it is difficult to see how a treaty of any practical value can be concluded so long as the senate maintains the hostile and obstructive attitude it displayed when it last discussed the question."

Arrested For Negligence.

CITY OF MEXICO, Sept. 20.—Eduard Valesque, chief of police; Lieutenant Cabrera, assistant chief of detectives, and Commandant Mauro Sanchez have been arrested and taken to prison and placed in solitary confinement for not preventing the lynching of President Diaz's assailant.

The Duke Has a Son.

LONDON, Sept. 20.—The Duchess of Marlborough, formerly Miss Consuelo Vanderbilt, has given birth to a son at Spencer House, the ducal London residence.

NEW VICTIMS OF FEVER

Southern Plague Spots Report More Cases.

DEATHS AT NEW ORLEANS.

People of That Place Show a Tendency to Give the City a Thorough Cleaning. Detention Camp in Operation—A Brave Priest.

CAIRO, Ills., Sept. 20.—Dr. Guiteras, the yellow fever expert, who has arrived here from Mobile, has pronounced the two suspicious cases at the Marine hospital to be yellow fever of a mild form. Owing to the prompt measures taken there is no danger of its spreading. The hospital is thoroughly guarded. There are several cases of sickness on the government dredgeboat Alpha, lying at East Cairo, Ky., and Drs. Guiteras and Egan will investigate them.

NEW ORLEANS, Sept. 20.—The local fever situation has undergone little change. The record book in the board of health office shows a total of six new cases and two deaths.

There are three cases under investigation and the health authorities still view the situation with some complacency. They do not yet anticipate an epidemic.

At a largely attended meeting of bankers, business men, ministers and representatives of laboring organizations it was resolved to ask the board of health to consider the advisability of adopting tomorrow as a general cleaning day.

Acting Mayor Britton and President Oliphant replied to the suggestion, strongly deprecating it. They wrote that it would be inadvisable and inexpedient to determine upon a fixed day for cleaning purposes, as such a movement would cause an accumulation of filth and trash which could not be removed at once, and by the stirring up of miasma would further endanger the health of the city instead of improving it. It was suggested, therefore, that each individual inhabitant of the city proceed, without delay, to the cleaning of his own premises to the disinfection of his water closets, alleys, yard, etc., and the destruction of all decaying matter by fire.

The detention camp at Fontainebleau has been declared to have been practically completed and to be ready for the reception of guests.

A special train went to Biloxi and Ocean Springs and from there carried about 40 people to the camp. Today the camp was thrown open to all comers. Those who are not inmates will have to stay in the camp 10 days, according to the rules laid down by Surgeon Murray, these rules being simply the federal law which the surgeon, as the commander of the camp, is bound to enforce. There were no new cases reported at Ocean Springs, but the weather was heavy and sultry and one of the patients was not expected to live.

Charles Zeigler, son of a prominent New Orleans family, was among those stricken Saturday at Ocean Springs, but his condition is not yet considered serious. When the fever had been declared epidemic and yellow he closed himself up in his home and did not come forth except to go to detention camp as soon as it was ready. Isolation, however, did not prevent the germs entering his home.

VICKSBURG, Miss., Sept. 20.—The fever at Edwards shows but slight increase and no deaths have occurred. Dr. Purnell reported four new cases.

Dr. Dunn, now at Ocean Springs, has been ordered to Edwards. Dr. Gedding is expected there, as is also tents for camp of refugees. The state board tried to prevent Father Prendergast of this city, who has never had the fever, from going to Edwards, but he considered it his duty and the board gave way. The board has a report from Biloxi, showing 36 cases to date, besides 16 suspects and 27 cases of yellow fever on hand. No deaths reported.

MOBILE, Ala., Sept. 20.—The official bulletin for 24 hours shows 11 new cases of fever.

One death, that of Frank Donaldson, was mentioned as one of the new cases in the dispatches Saturday night. Total cases to date, 29; total deaths, 3.

ANTHRACITE STRIKERS QUIET.

Troops Have No Trouble Preserving Order About Hazleton, Pa.

HAZLETON, Pa., Sept. 20.—Today is considered a decisive one in the strike. An attempt will be made to resume at Lattimer, where there are 1,300 men, and at Audenreid. There are nearly 2,500 men at the latter place and they were the first to go out. Many of them want to return to work, but bands of women have prevented them during the past few days. To insure protection a squadron of cavalry and the entire Eighth regiment will go to the scene. The men at Cox's Drifton mine are also to decide today upon staying out or continuing at work. All these places will be well guarded by troops, and if the men are peacefully permitted to resume work, it is thought that the backbone of the strike will be broken and no further violence will result. The coroner's inquest will begin Wednesday afternoon instead of Tuesday, as first intended.

Absolute quiet prevailed in the entire strike district Sunday. Vice President Maguire of the Federation of Labor left for Washington to attend the meeting of the executive council, which is to consider the situation, and George Chance of the United Labor League went to Scranton for a similar meeting of labor men there.

At the big massmeeting Saturday night the leaders advised the strikers to be peaceful.

Big Massmeeting of Miners.

SCRANTON, Pa., Sept. 20.—Nearly 5,000 laboring men, the large majority being miners and mine laborers, attended a massmeeting in the open air at Nay Aug park, Sunday afternoon, in response to a call from this city's Central Labor union, to protest against the Lattimer killing. Strong resolutions were adopted. The policemen found nothing to do, as the big gathering was quiet and orderly. Among the eight speakers were Hugh O'Donnell, the Homestead labor leader, and Geo. Chance of Philadelphia.

LEE GOING BACK TO CUBA.

Presence of Alger at Interview With the President Significant.

WASHINGTON, Sept. 20.—Consul General Lee is to return to Havana after a brief vacation in this country at President McKinley's request.

This is a complete reversal of the policy of the president. Last May he selected ex-Congressman Aldrich of Chicago for the Cuban consul generalship.

President McKinley changed his mind after listening to the verbal report of General Lee concerning the condition of affairs in Cuba. For nearly two hours General Lee was in conference with the president, and the secretary of war was present at the interview, as was also the assistant secretary of state.

General Lee gave information of a valuable character, because he was able to make statements from a military as well as a diplomatic point of view. He informed the president that it is practically impossible for Spain to conquer the insurgents. Everything is in their favor and everything is discouraging to the Spanish troops and authorities.

At the conclusion of the conference, during which every salient feature of the situation was discussed, President McKinley offered no comment, but quietly said:

"General Lee, I want you to go back to Cuba."

Without hesitation General Lee responded promptly, saying:

"I am at your service, Mr. President, and at the service of my country. I should be pleased, however, to remain here until the middle of October."

The president granted the leave of absence and the conference closed.

Prominent members of the diplomatic corps say that the presence of the secretary of war is exceedingly significant. In European countries it is always regarded as an alarm signal when a war minister participates in a diplomatic conference.

EXTENT OF IRISH DISTRESS.

Newspapers Claim That the Famine Stories Are Exaggerated.

LONDON, Sept. 20.—The extent of the distress threatening Ireland seems to depend largely as to through which party's eyes it is viewed. The council of the National Federation has decided that the country is on the brink of a widespread calamity and calls upon Messrs. Dillon and Harrington to convoke a meeting of the Irish members of parliament for the purpose of requisitioning Mr. Balfour, the government leader in the commons, to call an autumn session of the parliament to devise relief measures and to pass a bill reducing rents in Ireland in proportion to the loss incurred by the tenants owing to the wholesale destruction of their crops.

On the other hand, the Dublin Express says the cry of famine is only a continuation of the party war cry which is raised every year the Unionists are in office, and adds: "Judging from the past, we may hope that much of the crops doomed to destruction by the prophets of evil will be rescued and that the general yield will be much larger than expected."

The Daily Independent regards the suggestion that the Duchess of York will shortly appeal for funds in behalf of the Irish who are threatened with famine as being an insult, and says: "If the country was ten times as badly off as it is likely to be it would resent any charitable appeal to the English."

The Independent emphatically denies that Ireland, as a whole, will suffer acute distress.

Earthquake In Turkestan.

TASHKENT, Turkestan, Sept. 20.—A severe earthquake shock occurred here last night and the disturbance was felt throughout the whole of Turkestan.

Price of Food Rising.

MADRID, Sept. 20.—The price of all kinds of food is rising steadily owing to the depreciation of silver and of paper currency.

Treaty of Peace Signed.

CONSTANTINOPLE, Sept. 20.—The treaty of peace between Turkey and Greece has been signed here.

MONTEVIDEO, Sept. 20.—The treaty of peace between the government and the insurgents has been signed.

ALGER'S PLAN IS GOOD.

Locomotive Sleds Can Carry Food to the Klondyke.

MEN OF EXPERIENCE SO TELL HIM.

Weare and Cudahy Say There Is Ample Food For 5,000 Men For a Year at St. Michaels—Sleds Can Run on the Frozen Yukon.

WASHINGTON, Sept. 20.—Two representatives of the North American Trading and Transportation company, Messrs. P. B. Weare and Michael Cudahy of Chicago, have arrived here, coming at the special request of Secretary Alger, who desired to confer with them in regard to the question of sending relief supplies to the gold seekers in the Klondyke country, should the investigation now being made by Captain Ray of the army show such measures to be necessary. Shortly after their arrival in the city the two gentlemen went to the residence of Secretary Alger, where they remained in consultation with him for some time.

Mr. Weare, who has spent some time in Alaska, was able to give the secretary much information bearing on the topography, climate, distances from place to place and other conditions which would have to be confronted if aid were undertaken. Secretary Alger said that nothing final had been determined upon and that nothing would be until a report had been received from Captain Ray. The latter is supposed to be now at Dawson City, and his report is expected here about the middle of October. An important matter upon which Secretary Alger especially desired the opinion of Messrs. Weare and Cudahy was the feasibility of a locomotive sled designed to draw logs and other material over the ice. This has been in successful operation in the logging camps in Wisconsin and its adaptability to this work influenced the secretary to believe that it might be put into practical operation in Alaska should relief measures be necessary.

The representatives of the trading company had examined a drawing of the sled and had its workings briefly explained to them, and they expressed the opinion that it might be feasible for the purpose contemplated. Secretary Alger's idea is that the sleds might be taken to St. Michaels by ship, but even if this were not possible he believed they could be taken piecemeal over the Chilkoot pass and thence to the Yukon.

Messrs. Weare and Cudahy say there are ample provisions for 5,000 men for one year at St. Michaels, and they believe that if found necessary the sleds could be used to transport these supplies to Dawson City during the coming winter.

Secretary Alger has received a letter from the superintendent of construction for the patentee of the sled in which the writer says he understands that the Yukon river freezes solid enough to be used as a road; also that between White pass and Fort Selkirk, a distance of 350 miles, the land is practically level, and a good wagon road can be easily made. That, he says, is within 200 miles of Dawson city, and the river would furnish the road the rest of the way.

PENROSE SECURED SOME PLUMS.

New Postmaster at Philadelphia and Several Consular Appointments.

WASHINGTON, Sept. 20.—Postmaster General Geary has nominated T. L. Hicks for postmaster at Philadelphia, and the president endorsed the nomination. This was through the efforts of Senator Penrose.

The senator succeeded in having John B. Shaw of Clearfield county appointed consul at Varrancilla, Colombia. Mr. Shaw is the chairman of the Republican county committee for his county, and is a nephew of Representative of W. C. Arnold of that district. The salary attached to his consulate is \$2,500. Senator Penrose also secured the appointment of A. G. Seyfert of Lancaster county as consul to Stratford, Canada. Mr. Seyfert was a member of the last legislature. The salary is \$2,000.

Operators to Help Dolan.

PITTSBURGH, Sept. 20.—It is reported that President Patrick Dolan of the United Mine Workers will accept a loan of \$10,000 from operators who are opposed to W. P. DeArmit to carry on the fight against the New York and Cleveland Gas Coal company. The miners at work will not receive any pay for almost a month, and the 10 per cent to be deducted from their pay will arrive too late to be of use.

Wheeling to Go on Cruise.

SAN FRANCISCO, Sept. 20.—The gunboat Wheeling came down from the navy yard at Mare Island Sunday. The vessel has been ordered off on her maiden cruise as a warship, and as soon as she is coaled and supplied with provisions she will proceed to San Diego.

New Turkish Minister.

CONSTANTINOPLE, Sept. 20.—Ferrouh Bey, councillor of the Turkish embassy at St. Petersburg, has been appointed Turkish minister to the United States in succession to Moustapha Tachsin Bey.

ANTHRACITE STRIKERS QUIET.

Troops Have No Trouble Preserving Order About Hazleton, Pa.

HAZLETON, Pa., Sept. 20.—Today is considered a decisive one in the strike. An attempt will be made to resume at Lattimer, where there are 1,300 men, and at Audenreid. There are nearly 2,500 men at the latter place and they were the first to go out. Many of them want to return to work, but bands of women have prevented them during the past few days. To insure protection a squadron of cavalry and the entire Eighth regiment will go to the scene. The men at Cox's Drift mine are also to decide today upon staying out or continuing at work. All these places will be well guarded by troops, and if the men are peacefully permitted to resume work, it is thought that the backbone of the strike will be broken and no further violence will result. The coroner's inquest will begin Wednesday afternoon instead of Tuesday, as first intended.

Absolutely quiet prevailed in the entire strike district Sunday. Vice President Maguire of the Federation of Labor left for Washington to attend the meeting of the executive council, which is to consider the situation, and George Chance of the United Labor League went to Scranton for a similar meeting of labor men there.

At the big massmeeting Saturday night the leaders advised the strikers to be peaceful.

Big Massmeeting of Miners.

SCRANTON, Pa., Sept. 20.—Nearly 5,000 laboring men, the large majority being miners and mine laborers, attended a massmeeting in the open air at Nay Aug park, Sunday afternoon, in response to a call from this city's Central Labor union, to protest against the Lattimer killing. Strong resolutions were adopted. The policemen found nothing to do, as the big gathering was quiet and orderly. Among the eight speakers were Hugh O'Donnell, the Homestead labor leader, and Geo. Chance of Philadelphia.

LEE GOING BACK TO CUBA.

Presence of Alger at Interview With the President Significant.

WASHINGTON, Sept. 20.—Consul General Lee is to return to Havana after a brief vacation in this country at President McKinley's request.

This is a complete reversal of the policy of the president. Last May he selected ex-Congressman Aldrich of Chicago for the Cuban consul generalship.

President McKinley changed his mind after listening to the verbal report of General Lee concerning the condition of affairs in Cuba. For nearly two hours General Lee was in conference with the president, and the secretary of war was present at the interview, as was also the assistant secretary of state.

General Lee gave information of a valuable character, because he was able to make statements from a military as well as a diplomatic point of view. He informed the president that it is practically impossible for Spain to conquer the insurgents. Everything is in their favor and everything is discouraging to the Spanish troops and authorities.

At the conclusion of the conference, during which every salient feature of the situation was discussed, President McKinley offered no comment, but quietly said:

"General Lee, I want you to go back to Cuba."

Without hesitation General Lee responded promptly, saying:

"I am at your service, Mr. President, and at the service of my country. I should be pleased, however, to remain here until the middle of October."

The president granted the leave of absence and the conference closed.

Prominent members of the diplomatic corps say that the presence of the secretary of war is exceedingly significant. In European countries it is always regarded as an alarm signal when a war minister participates in a diplomatic conference.

EXTENT OF IRISH DISTRESS.

Newspapers Claim That the Famine Stories Are Exaggerated.

LONDON, Sept. 20.—The extent of the distress threatening Ireland seems to depend largely as to through which party's eyes it is viewed. The council of the National Federation has decided that the country is on the brink of a widespread calamity and calls upon Messrs. Dillon and Harrington to convoke a meeting of the Irish members of parliament for the purpose of requisitioning Mr. Balfour, the government leader in the commons, to call an autumn session of the parliament to devise relief measures and to pass a bill reducing rents in Ireland in proportion to the loss incurred by the tenants owing to the wholesale destruction of their crops.

On the other hand, the Dublin Express says the cry of famine is only a continuation of the party war cry which is raised every year the Unionists are in office, and adds: "Judging from the past, we may hope that much of the crops doomed to destruction by the prophets of evil will be rescued and that the general yield will be much larger than expected."

The Daily Independent regards the suggestion that the Duchess of York will shortly appeal for funds in behalf of the Irish who are threatened with famine as being an insult, and says: "If the country was ten times as badly off as it is likely to be it would resent any charitable appeal to the English."

The Independent emphatically denies that Ireland, as a whole, will suffer acute distress.

ALGER'S PLAN IS GOOD.

Locomotive Sleds Can Carry
Food to the Klondyke.

MEN OF EXPERIENCE SO TELL HIM.

Weare and Cudahy Say There Is Ample Food For 5,000 Men For a Year at St. Michaels—Sleds Can Run on the Frozen Yukon.

WASHINGTON, Sept. 20.—Two representatives of the North American Trading and Transportation company, Messrs. P. B. Weare and Michael Cudahy of Chicago, have arrived here, coming at the special request of Secretary Alger, who desired to confer with them in regard to the question of sending relief supplies to the gold seekers in the Klondyke country, should the investigation now being made by Captain Ray of the army show such measures to be necessary. Shortly after their arrival in the city the two gentlemen went to the residence of Secretary Alger, where they remained in consultation with him for some time.

Mr. Weare, who has spent some time in Alaska, was able to give the secretary much information bearing on the topography, climate, distances from place to place and other conditions which would have to be confronted if aid were undertaken. Secretary Alger said that nothing final had been determined upon and that nothing would be until a report had been received from Captain Ray. The latter is supposed to be now at Dawson City, and his report is expected here about the middle of October. An important matter upon which Secretary Alger especially desired the opinion of Messrs. Weare and Cudahy was the feasibility of a locomotive sled designed to draw logs and other material over the ice. This has been in successful operation in the logging camps in Wisconsin and its adaptability to this work influenced the secretary to believe that it might be put into practical operation in Alaska should relief measures be necessary.

The representatives of the trading company had examined a drawing of the sled and had its workings briefly explained to them, and they expressed the opinion that it might be feasible for the purpose contemplated. Secretary Alger's idea is that the sleds might be taken to St. Michaels by ship, but even if this were not possible he believed they could be taken piecemeal over the Chilkoot pass and thence to the Yukon.

Messrs. Weare and Cudahy say there are ample provisions for 5,000 men for one year at St. Michaels, and they believe that if found necessary the sleds could be used to transport these supplies to Dawson City during the coming winter.

Secretary Alger has received a letter from the superintendent of construction for the patentee of the sled in which the writer says he understands that the Yukon river freezes solid enough to be used as a road; also that between White pass and Fort Selkirk, a distance of 350 miles, the land is practically level, and a good wagon road can be easily made. That, he says, is within 200 miles of Dawson city, and the river would furnish the road the rest of the way.

Mr. Shaw is the chairman of the Republican county committee for his county, and is a nephew of Representative of W. C. Arnold of that district. The salary attached to his consulate is \$2,500. NEED FIRE PROTECTION BADLY.

London People Afraid Their Town Will Burn Up.

LONDON, Sept. 20.—The village council met in special session here to discuss the advisability of breaking the contract now existing between the Waterworks company and the village. The town was visited by a disastrous fire last Wednesday morning, and, by reason of the alleged inefficiency of the water service for its protection, the town was threatened with destruction.

On the night after the fire an indignation meeting was held and a committee appointed to wait upon the town council for the purpose of urging that body to bring the waterworks company to time for alleged violation of its contract. Nothing definite was done, however, and another meeting will be held this evening.

ROOT OUT THE TARES

A Practical Sermon by the Reverend Swift.

THE SEED AND THE HARVEST

Unless the Seed Be Planted in Good Ground, the Harvest Will Prove a Failure—Christ Disapproved of the Tares. Root Them Out.

EDITOR NEWS REVIEW:—I attended church yesterday morning and paid close attention to the words of Reverend Swift, pastor of the Methodist Protestant church. For his text he took this language: "For from you sounded out the word of the Lord." Paul's first letter to the Thessalonians, first chapter and first clause of eighth verse. The speaker pointed out the fact that the seed of truth is always good seed, only failing in bringing forth good harvest when it falls upon barren or unfruitful ground. He illustrated this feature first by giving an account of the seed sent out to the people from the agricultural department of the government at Washington city, asking recipients to make report of the harvest therefrom, showing that, in some cases, the report was: "Splendid seed; splendid crop; couldn't ask for anything better." A second report came, after seed of very same kind had been sown: Seed no good; harvest didn't amount to anything; don't send me any more of the stuff." The fault, you will see, did not lie in the seed; it was the reception, use and conditions accorded it. Reverend Swift then spoke of the tares which grow up with the good grain, and which should ever and always be rooted out at an early stage, in order that the good wheat might not suffer, but be sustained and strengthened, receiving the aid of all the essential elements which are so necessary to the reaping of a good harvest. The speaker said that he had not an iota of patience with the argument that you must not uproot the tares for fear of uprooting the good grain, backing this assertion up with the statement that the blessed Christ always and ever enunciated the idea and principle that the tares should be uprooted at an early stage, when the uprooting and destruction thereof had no material effect upon the harvest to be reaped; and not wait until said tares had robbed the wheat of the essential elements of life contained in the soil, and so entwined themselves with and around the good grain, root and branch, as to render it comparatively useless when the harvest time came.

Then came an eloquent application to the Christian and spiritual life, and, Mr. Editor, I was more than ever convinced that the proper thing to do in our churches is to root out the tares, and not permit the saloonist and his apologists (men who profess to be Christians and who rent their buildings for saloon purposes and uses) to continue their names upon the church records. My firm belief, founded upon the word of God, is that no church organization can succeed, and have the Master's blessing, as long as such men are accorded a place in the membership thereof. I am not harsh in this statement. I am not unmerciful. I am not pharisaical. I am simply an humble follower of the meek and lowly Nazarene. And when the saloonist and the saloonist's landlord shall quit their vile and abominable business, and shall cry out, in anguish of spirit and contriteness of heart, "Sirs, what must I do to be saved?" I shall be the very first to gladly respond: "Believe on the Lord Jesus Christ and thou shalt be saved."

Two Strangers Brutally Treated Blacksmith Randolph.

THEY TOOK ALL HIS MONEY

A West End Hold Up Without a Clue. Funds For the New Baseball Park. Raised Reverend Bowers' Salary—Stole an Umbrella—All the News.

There was a hold up in the West End Saturday night. A blacksmith named Randolph, who lives at Mahon, was enticed to a quiet spot on the Cleveland and Pittsburg tracks between the crossing and the Vulcan brick yards by two strangers, severely beaten, robbed and left for dead.

Every Saturday evening Randolph is a familiar figure in the West End where he comes from the Virginia side to do his marketing. Saturday evening he was in town, and met the strangers, who, he claims, enticed him to the Vulcan. What followed will cause him to be much wiser. The footpads evidently struck him with a coupling pin, for he has a long gash above the left eye and one in the back of his head.

Randolph found his way to the brick yard after recovering. A basket containing some groceries and wet goods was missing. So was all the spare change he had possessed. He stayed at the brick yard all night, and yesterday morning, after notifying the officers, returned home.

Raised Reverend Bower's Salary.

There was an extraordinary proceeding at the Christian church yesterday morning. Reverend Bowers addressed the Rechabites, the East Liverpool tents being present, and they listened to a splendid effort. After the address the church went into session, this being the time to decide who should be the pastor for the coming conference year. Reverend Bowers in a very polite manner asked that his salary be raised to \$1,000, and retired to await an answer. The church granted his request, there being but two dissenting votes. He closed with a few appropriate words thanking his congregation.

A Base Ball Park.

Base ball enthusiasts are busy making preparations to have a first-class base ball park next season. They propose to form a company, and each member will put in a certain amount of cash each week until about \$1200 accumulates. Then they will purchase a piece of land, fence it in with a ten foot fence, build a grandstand and put the grounds in first-class condition. Those who are at the head of the project say they have already selected the site, and as soon as the season closes will organize the company.

Stole an Umbrella.

An unknown young man was arrested by Officers Johnson and Mick yesterday for the theft of an umbrella. Mayor Jones was standing near his residence on Front street when he saw the man commit the theft. He attempted to catch him, but he escaped, and when the officers were informed was seen standing near the city building. Officer Mick started toward him, and he ran into an alley. Officer Johnson followed and when the culprit found himself trapped he gave up.

THE RAMIE PLANT.
New Uses to Which the Wonderful Fiber May Be Put.

It has been discovered that yarns from the fiber of the ramie plant can be satisfactorily used for the coarsest fabrics and up to the finest lace, covering, in fact, a range from twines, sailcloth, fishing lines and nets, hose piping, etc., where its qualities of strength and resistance to moisture are so desirable, up to stuff and dress goods, tapestry, upholstery, plushes and velvets, lace, damask cloths, sewing threads, ladies' wraps and shawls, etc.

The noils are used for mixing with wool and spinning on the wool's system for all kinds of cloths, while the combed sliver has been mixed with wool, its spinning qualities helping weak wools and imparting to them a certain luster.

For the production of 1,000 pounds of yarn per day a plant is required, consisting of four degumming boilers with accessories, 2 finishing boilers with accessories, 6 combined wringers and washers, bleachroom gearing overhead travelers, 8 vats and trays, steam and water piping and utensils, a 10 roller softener, 6 reducing gill boxes, 4 finishing reducers, 4 finishing gills for combers, 12 combers, 4 doubling gills, 14 drawing frames, 5 roving, 20 spinning, 6 doubling, 10 reellers, 2 bundling presses, cans, etc.—Exchange.

NEW MATCH MATERIAL.
Paper to Supersede Wood in the Manufacture of Lucifers.

It is predicted that paper is the coming material for matches. The prospect of the wooden match industry being appreciably affected by a new process for manufacturing matches of paper is held to be extremely probable, particularly as the best wood for this purpose is constantly growing scarcer and more costly.

The new matches are considerably cheaper than the wooden product, and weigh much less, which counts for much in exportation. The sticks of the matches consist of paper rolled together on the bias. The paper is rather strong and porous, and, when immersed in a solution of wax, stearin and similar substances, sticks well together and burns with a bright, smokeless and odorless flame.

Strips one-half inch in width are first drawn through the combustible mass and then turned by machinery into long, thin tubes, pieces of the ordinary length of wood or wax matches being cut off automatically by the machine. When the sticks are cut to size, they are dipped into phosphorus, also by machinery, and the dried head easily ignites by friction on any surface.—Boston Transcript.

SAYS SHE IS A WITCH.
A Man Accuses His Wife of Practicing the Black Art.

O. F. Woodruff, a well known young hatter of Louisville, whose domestic difficulties have brought him frequently into the courts, has sued his wife for divorce on the ground that she practices the black art. He says he has discovered that she possesses the power of foretelling future events and that she can charm any one at will or injure any person "by secret uses of mixtures of decoctions of roots, herbs, flesh of animals, insects and reptiles, with chemicals, powders, acids, poisons, etc."

Woodruff charges that she placed her decoctions or mixtures in his food and thereby caused him to become seriously ill; that she made sachet bags, filled them with her powders and novel ingredients, which she placed around his picture, about his bed and in other places.

A Mathematical Wonder.

Jedediah Buxton was the greatest prodigy of mathematics that ever appeared in England. His education was very limited, and he had never been taught arithmetic or indeed any branch of mathematics, so that his abilities in this respect were peculiarly natural. He would walk over a piece of land and tell with exactness how many acres and square rods were contained in it. His memory was so great that while resolving a question he could leave off and resume the occupation again the next morning or at a week, a month or several months later and proceed regularly till it was completed.

SESSION GAVE ITS SIDE

Another Chapter in the Case of
J. L. Swan.

WANTED AN OPEN TRIAL

Unfairness is Charged in the Hearing of
the Matter at the Fall Meeting of Pres-
bytery at Yellow Creek Church—A State-
ment Given to the Congregation.

Yesterday was rallying day at the
First Presbyterian church, and in addi-
tion to the special services provided for
the occasion, there was added another
chapter to the case of J. L. Swan.

The auditorium was beautifully deco-
rated with potted palms and cut flowers,
and one of the largest assemblages of
the year was gathered to observe the oc-
casion. The opening exercises had been
passed through, and Dr. John Lloyd Lee
announced that according to custom the
session and trustees would give their
annual report, and called upon John A.
George to read the report of the session.

Mr. George walked to the pulpit, and
taking a paper from his pocket, began to
read. After the first words that large
congregation was all attention, for the
report was the official statement of the
session regarding the case of J. L. Swan.
It opened with the announcement that a
conference of the session and Mr. Swan's
friends was held with a view to arrang-
ing the matter, but nothing came of it.
It had been reported, continued Mr.
George, that the session and Doctor Lee
had been unwilling to forgive, but Doc-
tor Lee had offered to forgive uncondi-
tionally and make the matter right. Mr.
Swan had said that he would test the
pastor's sincerity, and would modify his
charges against the minister, provided
the session would say that its action to-
ward him had been unjust and illegal
and restore him to membership in the
church. This the session could not do.
Then the session proposed a plan, but it
was not accepted. The session holds
that it did what the discipline of the
church provides in such cases, and its
position is supported in letters written
by Dr. W. H. Roberts, stated clerk of
the general assembly, and Dr. W. E.
Moore, permanent clerk of the synod of
Ohio, and an authority on the law of the
church.

Mr. George also said that an oppor-
tunity to try the case in open meeting
was denied the session at the last meet-
ing of the Steubenville presbytery. The
committee appointed had read the re-
cord, but taken no testimony. Then the
matter had been given to a commis-
sion, although the session pleaded to
have the presbytery hear the case. The
chairman of the committee presided also
over the commission. They were ap-
pointed to try the case, but did not do
it, only having conferences with the in-
terested parties separately.

Tuesday evening before the decision
was given a member of the commission
came to Doctor Lee and Mr. Allison,
read Mr. George, and said they had bet-
ter compromise the case or it would be
worse for them, for they had their
minds made up. This was before the
regular meeting. He further said they
had not read the record, but their minds
were made up. The session did not
agree to the final action of the presby-
tery, but promised not to oppose the
action if that body would assume the re-
sponsibility.

The reading of the report was fol-
lowed by a statement of finances from
J. J. Purinton on behalf of the trustees.
It showed the membership to be 1,143,
and the expenses \$4,500 a year, with a
possible deficit next year of \$410.
Doctor Lee ended the service by de-
livering a splendid sermon.

CHRISTIAN VS. CHURCH MEMBER.

Is there a difference? Is there any
human being of average intelligence,
who does not recognize the fact that
there may be and oftentimes is a vast dif-
ference—a vital difference. The first is
the accepted child of God. The second
may be and often is the child and will-
ing servant of the devil, the father of
lies and evil. The church member oft-
times steals the livery of heaven to serve
the devil in. By their fruits ye shall
know them. Where do you stand?

DON'T DO IT.

Don't take a stand against the Truth.
Don't take a stand against the Right.
Don't take a stand against the Bible.
Don't take a stand against God—the
God of Truth, Right and Holy Writ. So
surely as you take a stand against the
features above enumerated, so surely
shall bitter punishment come upon you,
in this life and in the life to come.

THE WRONG ISSUE.

The Democrats expect to open their
campaign next Wednesday, but to the
present no authoritative statement as to
the nature of the principal issue has
been made. It is true, however, that if
McLean is made to serve that purpose
the leaders will make the mistake of
their public career. They cannot trot
forth the Washington magnate as the
idol of the people, the only unadulterated
exponent of all that is pure and beauti-
ful. His record as a monied man whose
money is invested in trusts and combi-
nations is not calculated to fit in with
an arraignment of the classes against
the masses, while the fact that he is not
a resident of Ohio, but lives in Wash-
ington, is another point which the peo-
ple will not relish. If McLean is to be
elected he must be elected upon some
issue which does not include very much
McLean.

MR. KITCHELL IS BETTER

Although Not Yet Able to Leave His Home.

F. D. Kitchell, cashier of the Potters' bank, was seized by a sudden attack of heart trouble while attending services at the First Presbyterian church yesterday morning. He was quickly carried into the lobby where he was attended by a number of friends and Doctors Toot and Clark. The gentleman is better today, although he is not yet able to look after business.

A Wild Runaway.

Sanford Anderson, of Washington street, was driving up the Calcutta road yesterday morning when his horse became frightened, and suddenly turning ran down the road. Mr. Anderson was thrown out, but the horse continued its mad flight until it collided with the fence at the corner of Walnut street where it was caught. Mr. Anderson was badly bruised, the horse was hurt and the buggy wrecked.

Only One Case.

Police business was very quiet this morning, and only one case appeared before the mayor.

Charles Molan was put in the coop yesterday afternoon by Officer Whan. He was drunk, and sleeping in a doorway, in Broadway, and the patrol was used to haul him over. He was fined \$6.60 for his bed.

City Janitor Richards from Jethro is still working, and it is expected he will hold his job for several days.

Went Away For Sunday.

Travel west on the Cleveland and Pittsburg road Saturday evening was heavier than it has been for some time. No less than 75 people went down the river on the 7:15 train and traffic out the main line on the afternoon train was also heavy. Most of the people were from this city and were going away for Sunday.

Our display of gas stoves will be as complete as any city store and prices as low at the Eagle Hardware company.

The First.

Sanitary Officer Burgess, who owns property at 179 Third street, will this week grade the sidewalk in front of his residence. He is the first in that street to make a move of that kind, and it is expected other property owners will follow suit.

The fine goods you looked at Saturday, will be kept in stock for sale at J. M. Heaton's jewelry store, Grand Hotel building.

ROAD RACE TOMORROW

Association Riders Will Start From Steubenville.

WILL TRY TO LOWER THE TIME

Some Crack Wheelmen Have Entered, and Will Do Their Best to Cut Down the Record—Officers of the Contest—Director Morris Is Starter.

All arrangements for the road race to be held tomorrow have been completed.

William Bott, Bert Shay, John Swartz, Paul Shaw and Will Blake have entered, and will leave on the noon train for Steubenville, and the start will be made from the front of the Star office promptly at 4:30 o'clock, and the finish will take place at the Young Men's Christian association building.

Homer Morris will act as official starter, and the judges are Charles McKee, C. G. Peterson and Thos. W. Morris, while S. T. Herbert will act as timer and J. T. Herbert will score the race.

The record over the course is 1:27, and the riders will strain every effort to make better time, but it is probable they will not be able to do it, as the road is not in the best possible shape. In case of rain the race will be postponed until next week.

Spiders as Weather Prophets.

One of the best of weather prophets is the spider. If there happens to be a web in the secluded corner of the porch, watch it carefully for a few days or weeks, and the spider will unfailingly predict the coming of storms.

When a high wind or a heavy rain threatens, the spider may be seen taking in sail with great energy—that is, shortening the rope filaments that sustain the web structure. If the storm is to be unusually severe or of long duration, the ropes are strengthened as well as shortened, the better to resist the onset of the elements. Not until pleasant weather is again close at hand will the ropes be lengthened as before. On the contrary, when you see the spider running out the slender filaments it is certain that calm, fine weather has set in, whose duration may be measured by their elongation.

Every 24 hours the spider makes some alteration in its web to suit the weather. If these changes are made toward evening, just before sunset, a fine, clear night may be safely counted upon. When the spider sits quiet and dull in the middle of its web, rain is not far off. If it be active, however, and continues so during a shower, then it will be of brief duration, and sunshine will follow.—Chicago Record.

DRUNK IN THE STREETS

Disgraceful Scenes Were Witnessed Sunday.

FOUR SEEN WITHIN AN HOUR

Others Were Seen Later in the Day Staggering Along as Best They Could—An Incident Which Attracted Comment and Attention.

For some reason, it does not appear on the surface, there were more drunks in sight yesterday than have disgraced the streets of East Liverpool in many days, Sunday though it was.

They were out early. Between 10 and 11 o'clock four staggering men wandered along Washington street, and in half an hour before that time two were seen in the alley near the First Presbyterian church. At an earlier hour one man so drunk that he could scarcely stand still, opened an argument with a pedestrian in Franklin street, but was walked away by a friend.

Whether these cases were the results of too many cups Saturday night or went to show that the saloons were doing business on Sunday is not made plain, but it is certain that if the police had arrested everyone of them they would think twice before they did it again.

ENOCH IS ALL RIGHT.

He Would Like Such Birthdays to Often Occur.

Mr. Enoch Riley, eldest son of Mr. Henry Riley, reached his twenty-first birthday on Saturday last. Enoch is employed at Sebring's pottery and was sent home on some excuse. Reaching his parental domicile, he was greeted warmly by his uncles, aunts, cousins and a number of warm personal friends, and congratulations were the order of the day. After a splendid dinner had been disposed of, Mr. J. C. Cunningham, acting for the donors, presented Enoch with a deed for a lot in East Liverpool, the gift of his father and mother; a handsome suit of clothes, from brothers and sisters, with jewelry and other appropriate presents from relatives and friends. The young folks indulged in a social dance in the evening, and kept up

the glee and merriment until a late hour. Those present assert that the occasion was one of unalloyed pleasure.

THE MAN IN BLACK.

Walker Whiteside Will Present It at the Grand.

Walker Whiteside and his company arrived in the city today, and will tonight present the "Man in Black" at the Grand. The advance sale of seats is large.

"Darkest America" comes to the Grand tomorrow night. Al Field's minstrels are always welcome in Liverpool, and will play to a large audience.

AN UNUSUAL DAY.

An Immense Amount of Ware Was Sent Out Saturday.

The freight depot was a busy place last Saturday. The force went to work at 7 o'clock in the morning, and Sunday was not far away when the last cask was put in a west bound car. While there was no more ware shipped than on other days, the first shortage of cars was noted on Friday and that helped to make the rush.

PREPARING FOR WINTER.

Bought Some New Trucks For the Old Street Cars.

The street railway company are preparing for winter, and in a few weeks will be ready for the cold. Five sets of new trucks for the winter cars have already arrived here, and will take the place of old trucks at once. The cars used on the line last winter will be brought into service.

An Old Resident Dead.

SALINEVILLE, Sept. 20.—[Special]—Jacob S. Adams, of Brush Creek township, Jefferson county, died Sunday morning at 2 o'clock of disease incident to old age, Saturday being his 76th anniversary. The funeral will take place Tuesday at 10 o'clock. Interment at Monroeville cemetery.

Deceased leaves two sons and one daughter, one son being M. A. Adams, of East Liverpool.

Gas stoves, fireplace heaters and gas ranges, all kinds sizes and prices, at the Eagle Hardware company.

The jewelry display at J. M. Heaton's Saturday, was one of the finest, and a treat to the eye.

Unfortunate Omission.

One of the most singular instances of punishment for an oversight was that shown by the commitment of an almanac maker to the Bastille in 1717.

It was made out by order of the Duke of Orleans, regent during the minority of Louis V of France, and read as follows:

"Laurence d'Henry, for disrespect to King George I in not mentioning him in his almanac as king of Great Britain."

How long this unlucky almanac maker remained in prison is unknown. The register of the Bastille, examined at the time of the revolution, failed to throw any light on the subject.—Youth's Companion.

Zebra Culture.

On several South African farms experiments have been tried with Burchell's zebra. The zebras become as tame as ponies, and are readily broken in for draft work. The object of their tamers has been to breed a mule which, like the zebra, is proof against the tsetse fly. The zebras themselves run well enough in a mule team, though they cannot stand overdriving.—London Spectator.

How to Make a Fortune.

When old Zachariah Fox, the great merchant of Liverpool, was asked by what means he had contrived to realize so large a fortune as he possessed, his reply was:

"Friend, by one article, in which thou mayst deal, too, if thou pleasest—civility."—Golden Days.

PITH OF THE NEWS.

Miss Anna Forbes Goodyear of Boston, well known for her work for the advancement of the poorer classes, is hard at work at present to perfect a plan to establish a farming colony in Washington, where the poor of the east may make comfortable homes.

General Thomas L. Clingman, who has just been given a home for the rest of his days in the state hospital of North Carolina, was once one of the most prominent men of the south, and has been both senator and representative.

Miss Mary S. Francis, who has been connected with the educational work among the Indians of Nebraska and South Dakota, said, while in Chicago recently, that one of the greatest drawbacks to the work of civilizing the Indian is the lack of industrial schools on the different reservations.

Mrs. Jefferson Davis, when told of the criticism which had been excited in the south by her removal from her old home at Beauvoir to New York, said that her principal reason for moving was her health, but that she was also influenced by the isolation of her southern home and the annoyance of sightseers who visited the old home of the idol of the Confederacy.

On several South African farms experiments have been tried with Burchell's zebra. The zebras become as tame as ponies, and are readily broken in for draft work. The object of their tamers has been to breed a mule which, like the zebra, is proof against the tsetse fly. The zebras themselves run well enough in a mule team, though they cannot stand overdriving.—London Spectator.

How to Make a Fortune.

When old Zachariah Fox, the great merchant of Liverpool, was asked by what means he had contrived to realize so large a fortune as he possessed, his reply was:

"Friend, by one article, in which thou mayst deal, too, if thou pleasest—civility."—Golden Days.

PITH OF THE NEWS.

Miss Anna Forbes Goodyear of Boston, well known for her work for the advancement of the poorer classes, is hard at work at present to perfect a plan to establish a farming colony in Washington, where the poor of the east may make comfortable homes.

General Thomas L. Clingman, who has just been given a home for the rest of his days in the state hospital of North Carolina, was once one of the most prominent men of the south, and has been both senator and representative.

Miss Mary S. Francis, who has been connected with the educational work among the Indians of Nebraska and South Dakota, said, while in Chicago recently, that one of the greatest drawbacks to the work of civilizing the Indian is the lack of industrial schools on the different reservations.

Mrs. Jefferson Davis, when told of the criticism which had been excited in the south by her removal from her old home at Beauvoir to New York, said that her principal reason for moving was her health, but that she was also influenced by the isolation of her southern home and the annoyance of sightseers who visited the old home of the idol of the Confederacy.

TWO PLAYERS SPIKED

In the Liverpool-Cottage Ball Game.

SOME VERY DIRTY PLAYING

An Incident to Which the Grand Stand did Not Take Kindly—A Battle of pitchers—First Football Tomorrow Afternoon.

The ball game Saturday afternoon at the West End park was the best of the season, and was won by the home team by a score of 8 to 7.

In the third inning, in sliding back to first base, Schott accidentally spiked Heckathorn but not severely. In the fifth inning, Kennedy gave an exhibition of ball playing seldom seen on the home grounds. He hit to short, and arriving at first base a little behind the ball deliberately threw his arms around Cushing and threw him to the ground, severely spiking him in the heel and causing him to drop the ball. Umpire Reark promptly called the player out. He objected to the decision and the umpire started to leave the field. The grandstand soundly hissed the player and applauded the umpire, who after some persuasion decided to finish the game. The cut in Cushing's foot was dressed and he pluckily finished the game. McShane and Cappe pitched an elegant game, and up to the sixth inning but one scratch hit had been made off the delivery of McShane.

In the ninth inning, with a score 8 to 3 in favor of the home team, the visitors began to pile up the runs, but McShane was equal to the occasion and struck the last man out. The score:

This is news to Manager Rose, but he wired New Castle and if the item is correct the foot ball season will be opened Friday afternoon at West End park.

It is probable no more ball games will be played here this season, as money was lost Saturday. The crowd was large enough, but there were too many deadheads at the game.

A telegram from the manager of the Geneva college eleven stated they would play here Thursday for \$50. They won't get it.

A morning paper announces that the New Castle eleven will play here Friday and will be met with a brass band, and a reception is to be given in the evening in their honor. This is news to Manager Rose, but he wired New Castle and if the item is correct the foot ball season will be opened Friday afternoon at West End park.

A Row.

About 12 o'clock Saturday night a young man named Coulson and a stranger indulged in a row at the corner of Broadway and Sixth street. The stranger was badly used up, while Coulson received but few injuries. No arrests were made.

All the goods are marked with plain figures, and the price always the same at J. M. Heaton's, jeweler, corner room, Hotel Grand.

Council is this afternoon viewing Eighth street, for the purpose of settling the dispute in regard to the width of the sidewalks on that street.

The case of Mrs. Grim against Jim Sharp has been disposed of. Jim was let off without a fine as there was not enough evidence to convict him.

Miss Mary Lloyd is ill at her home in Seventh street. The young lady recently took treatment at Markleton, but was not benefited by her stay there.

J. H. Harris and a force of workmen left for Rochester this morning where they will commence work on a new furnace for a glass company in that place.

James Clendenin, who resides in a shanty boat near the glass house, was arrested Saturday night on a charge of using profane language. The affidavit was signed by Lewis Call. Clendenin was locked up for a short time when he gave bail for his appearance.

The annual Harvest Home services were held yesterday in St. John's Evangelical Lutheran church. The edifice was decorated with flowers and the fruits of the fields, and appropriate services were conducted. The offerings were given to home missions.

A small fire occurred in the house of John Purpura near the ice plant Saturday night, but was smothered with a blanket. The family were asleep, and the fire was discovered by Mrs. Purpura, who was awakened by the cry of a baby. The damage amounts to about \$20.

Saturday night a well dressed young man secured lodging at a hotel and paid for it in advance. About midnight he sold his bed to another party and mysteriously disappeared. The landlady hailed a pedestrian and wanted him to notify the police as she feared the young man had met with foul play.

A crowd of small boys found amusement yesterday afternoon by sending a number of police calls to the fire station. One of these calls was sent in from the Burford plant, and Officer Terrence was detailed. An investigation proved that the boys had entered the plant while the watchman was in another part of the pottery. The boys, if caught will be severely dealt with, as the offense is punishable by imprisonment.

The Bookkeeper's Bete Noire.

Ask a bookkeeper what his "black beast" is, and he will tell you the monthly trial balance. Some of you know what that is, of course, but the majority of you perhaps do not. Let us explain briefly. In double entry bookkeeping, the only kind that deserves the name of bookkeeping, every debit must have its credit—that is to say, every item that is carried to the debit of one account must be carried to the credit of another.

Say, for example, you buy a bill of goods from a merchant. He enters the amount to your debit on his books and at the same time credits an account called "merchandise," this account being debited with all the goods brought into the stock and credited with all the goods sold from it. When you pay the bill, you are credited with the amount, and an account called "cash" is debited, because it receives the money.

This will explain to the uninitiated the meaning of the term "double entry," and it will also explain why, after the entries have all been carried to the ledger and balances have been struck thereon, the debits and the credits will agree if the books have been correctly kept. To test the correctness of his work the bookkeeper takes off every month a trial balance, which consists simply of the debit balances in one column and the credit balances in another. If they foot up the same, the work has been correctly done. If they vary, he must look for and find the error or errors before the next month's business is entered on the ledger.

You can readily understand, therefore, why the trial balance is the bookkeeper's "black beast." We have known cases in which trifling errors have eluded the most careful search for several days and nights and even for weeks, torturing the soul of the bookkeeper almost past endurance. But he has to stand it, for the error must be found.—Philadelphia Times

The case of Mr. Andrews against Mrs. Minis will be heard by Mayor Gilbert Thursday next.

H. J. Windram has disposed of his business on West Market street. It is probable he will travel.

Last evening the trimming in the window of a Diamond shoe house caught fire. It was extinguished before much damage was done.

J. W. Witherow, L. A. Platt and L. H. Shuchfield, of New Brighton, spent yesterday in this place visiting friends.

State Secretary W. A. Kling will arrive in the city tomorrow for the purpose of looking over the Association work here.

Five new members were taken into the Young Men's Christian association Saturday evening. This makes a total membership of 320.

Miss Lenora Smith, of Calcutta road, who has been attending school in Geneva, Pa., for some time, is confined to her home by illness.

Council is this afternoon viewing Eighth street, for the purpose of settling the dispute in regard to the width of the sidewalks on that street.

The case of Mrs. Grim against Jim Sharp has been disposed of. Jim was let off without a fine as there was not enough evidence to convict him.

Miss Mary Lloyd is ill at her home in Seventh street. The young lady recently took treatment at Markleton, but was not benefited by her stay there.

J. H. Harris and a force of workmen left for Rochester this morning where they will commence work on a new furnace for a glass company in that place.

Doctor J. C. Taggart will this week entertain the members of Company C, One Hundred and Fourth Ohio Volunteers. The exact date has not been announced.

A small fire occurred in the house of John Purpura near the ice plant Saturday night, but was smothered with a blanket. The family were asleep, and the fire was discovered by Mrs. Purpura, who was awakened by the cry of a baby. The damage amounts to about \$20.

Saturday night a well dressed young man secured lodging at a hotel and paid for it in advance. About midnight he sold his bed to another party and mysteriously disappeared. The landlady hailed a pedestrian and wanted him to notify the police as she feared the young man had met with foul play.

A crowd of small boys found amusement yesterday afternoon by sending a number of police calls to the fire station. One of these calls was sent in from the Burford plant, and Officer Terrence was detailed. An investigation proved that the boys had entered the plant while the watchman was in another part of the pottery. The boys, if caught will be severely dealt with, as the offense is punishable by imprisonment.

The Bookkeeper's Bete Noire.

Ask a bookkeeper what his "black beast" is, and he will tell you the monthly trial balance. Some of you know what that is, of course, but the majority of you perhaps do not. Let us explain briefly. In double entry bookkeeping, the only kind that deserves the name of bookkeeping, every debit must have its credit—that is to say, every item that is carried to the debit of one account must be carried to the credit of another.

Say, for example, you buy a bill of goods from a merchant. He enters the amount to your debit on his books and at the same time credits an account called "merchandise," this account being debited with all the goods brought into the stock and credited with all the goods sold from it. When you pay the bill, you are credited with the amount, and an account called "cash" is debited, because it receives the money.

This will explain to the uninitiated the meaning of the term "double entry," and it will also explain why, after the entries have all been carried to the ledger and balances have been struck thereon, the debits and the credits will agree if the books have been correctly kept. To test the correctness of his work the bookkeeper takes off every month a trial balance, which consists simply of the debit balances in one column and the credit balances in another. If they foot up the same, the work has been correctly done. If they vary, he must look for and find the error or errors before the next month's business is entered on the ledger.

You can readily understand, therefore, why the trial balance is the bookkeeper's "black beast." We have known cases in which trifling errors have eluded the most careful search for several days and nights and even for weeks, torturing the soul of the bookkeeper almost past endurance. But he has to stand it, for the error must be found.
